How did the fund perform last year and what affected its performance?

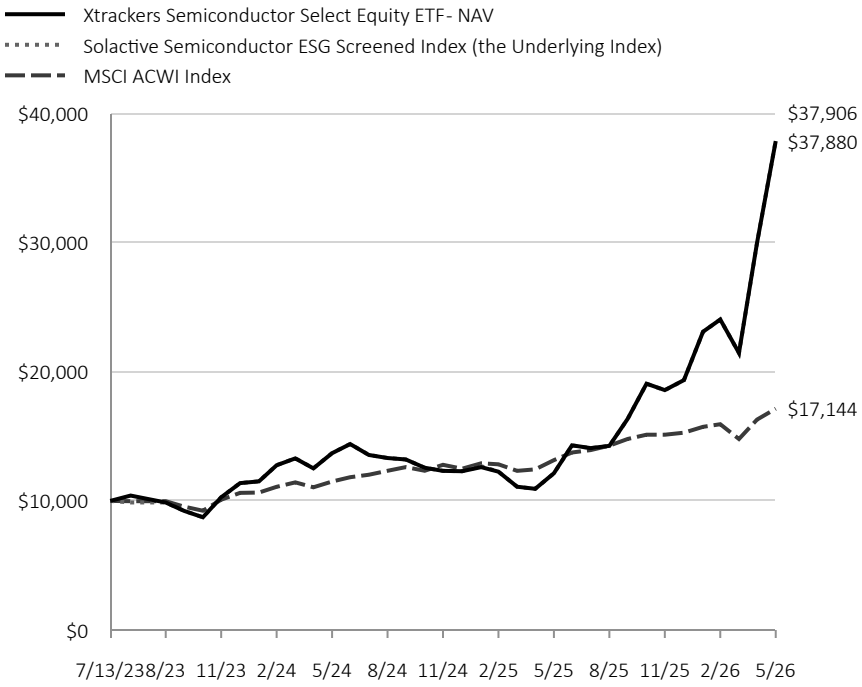

The Fund seeks investment results that correspond generally to the performance, before fees and expenses, of the Solactive Semiconductor ESG Screened Index (the Underlying Index). The Underlying Index is comprised of companies that have business operations in the semiconductor industry and that fulfill certain sustainability criteria.

The Fund returned 211.95% for the period ended May 31, 2026. The Fund's underlying index returned 212.27% and the Fund's broad-based index the MSCI ACWI Index returned 30.27% during the same period.

The Semiconductors, Semiconductor Materials & Equipment and Electronic Components sectors contributed positively to performance during the period. From a geographical perspective, the United States, Korea and Taiwan were the positive contributors to performance.

Fund Performance

Cumulative Growth of an Assumed $10,000 Investment

Solactive Semiconductor ESG Screened Index is comprised of companies that have business operations in the semiconductor industry and that fulfill certain sustainability criteria.

MSCI ACWI Index captures large and mid-cap representation across Developed Markets and Emerging Markets countries. The index covers approximately 85% of the global investable equity opportunity set.

The MSCI ACWI Index is a required broad-based index that represents the fund's overall equity market.

Index returns do not reflect any fees or expenses and it is not possible to invest directly into an index.

Performance shown is historical. The Fund's past performance is not a good predictor or guarantee of the Fund's future performance. Investment returns and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. The performance graph and returns table do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the sale of Fund shares. Shares are bought and sold at market price (closing price) not net asset value (NAV) and are not individually redeemed from the Fund. To obtain the most recent month-end performance data visit etf.dws.com/en-us/etf-products or call (844) 851-4255.

Please keep in mind that high double-digit returns were primarily achieved during favorable market conditions. Investors should not expect that such favorable returns can be consistently achieved. A Fund's performance, especially for very short time periods, should not be the sole factor in making your investment decision.

Householding

Householding is an option available to certain fund investors. Householding is a method of delivery, based on the preference of the individual investor, in which a single copy of certain shareholder documents can be delivered to investors who share the same address, even if their accounts are registered under different names. Please contact your broker-dealer if you are interested in enrolling in householding and receiving a single copy of prospectuses and other shareholder documents, or if you are currently enrolled in householding and wish to change your householding status.

Companies in the semiconductor field face intense competition, both domestically and internationally, which may have an adverse effect on profit margins. Cybersecurity companies also face heightened risk due to their dependence on the availability of materials that meet exacting standards, to reliance on a limited number of suppliers and by potential loss or impairment of patent and intellectual property rights. Incorporation of ESG criteria in the Fund's investment strategy does not guarantee a return or protect against a loss, limits the types and number of investment opportunities available to the Fund and, as a result, the Fund may underperform other funds that do not have an ESG focus. Regulatory changes or interpretations regarding the definitions and/or use of ESG criteria could have a material adverse effect on the Fund's ability to invest in accordance with its investment policies and/or achieve its investment objective, as well as the ability of certain classes of investors to invest in funds following an ESG strategy such as the Fund. Foreign investing involves greater and different risks than investing in US companies, including currency fluctuations, less liquidity, less developed or less efficient trading markets, lack of comprehensive company information, political instability and differing auditing and legal standards. Any fund that focuses in a particular segment of the market or region of the world will generally be more volatile than a fund that invests more broadly. This fund is non-diversified and can take larger positions in fewer issues, increasing its potential risk. An investment in the Fund should be considered only as a supplement to a complete investment program for those investors willing to accept the risks associated with the Fund. Please read the prospectus for more information.

This report must be preceded or accompanied by a prospectus. We advise you to consider the Fund's investment objectives, risk factors, and charges and expenses carefully before investing. The prospectus contains this and other important information about the Fund, which can be requested by calling (844) 851-4255, or visit dws.com/etfreports to view or download a prospectus. Please read the prospectus carefully before you invest.
